4 Audio CDs	9781520021065	US \$49.99
1 MP3 CD	9781520021102	US \$29.99

**"Dark Winter is an important contribution for understanding and facing the environmental challenge, in its multi-faceted and often disquieting manifestations. John Casey approaches problems like a true scientist, who follows Leonardo da Vinci and he also knows how to explain concepts in a form that anyone can understand."**— *Dr. Giovanni Gregori, Theoretical Physicist, Italy*

**"The air is filled with lectures and rumors that our Earth is getting warm. The author of Dark Winter, John Casey has found evidence to the contrary. His work is quite a revelation that marks a step toward a new scientific civilization. This book adds a brilliant page to the history of science!"**— *Dr. Fumio Tsunoda, National Saitama University, Japan*

## Dark Winter

by John L. Casey

Read by David Stifel

**In Dark Winter, John L. Casey tells the truth about ominous changes taking place in the climate.**

Climate change has been a perplexing problem for years. Casey's research into the Sun's activity, which began almost a decade ago, resulted in discovery of a solar cycle that is now reversing from its global warming phase to that of dangerous global cooling for the next thirty years or more. This new cold climate will dramatically impact the world's citizens. A sobering look at Earth's future, Dark Winter predicts worldwide, crop-destroying cold; food shortages and riots in the United States and abroad; significant global loss of life; and social, political, and economic upheaval.

### AUTHOR

John L. Casey has served his country, science, and high technology industries for over thirty-five years. He has been a national space policy adviser to the White House and Congress, a space shuttle engineer, consultant to NASA Headquarters, and consultant to or president of several leading edge technology start-ups. He is currently the President of the Space and Science Research Corporation (SSRC) a leading, independent, research organization in Orlando, Florida, USA.

### READ BY

David Stifel was trained at the Yale School of Drama, where he learned very early on to have a profound respect for the writer's text and intent. He has worked for such noted film directors as Steven Spielberg (Minority Report), Danny Boyle (A Life Less Ordinary), and Joel Schumacher (The Number 23).
