The Chicago Tribune

"A brilliant and thoroughly modern guide to learning new languages. Fluent Forever won't teach you French, or German, or any other language--but it will teach you how to learn whatever language you do want to learn, and to learn it faster, and more efficiently. If you want a new language to stick, start here."— *Gary Marcus, cognitive psychologist and NYT bestselling author*

Fluent Forever

Read by Gabriel Wyner

With empathy and abundant humor, Wyner deconstructs the fastest language learning hacks.

Memory is the greatest challenge to learning a foreign language; there are just too many words and too many rules. For every new word we learn, we seem to forget two old ones, making fluency seem out of reach. *Fluent Forever* tackles this challenge head-on. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.
