If Only For One Night

by ReShonda Tate Billingsley, Victoria Christopher Murray

Read by Mia Ellis

Angelique is married to a man who has given her everything—except for his time.

Her husband is a workaholic, more concerned with his family's financial situation than emotional stability, and he doesn't understand why his wife is unhappy. He doesn't understand why the house and the credit cards and the fabulousness of what he's given her isn't enough. So when Angelique meets someone new, she does something she never thought she'd do—she has an affair. It's addictive, and Angelique wants more and more, but is she willing to give up everything she has for this fantasy come true?
